

Cultural Boycott

*Tune: Bucks Fizz 'Making your Mind Up',
New words: London Palestine Action*

You gotta talk it through
And then you gotta give it thought
Cause if you believe in
Palestinian human rights

You gotta show support
And soon you will find
that there comes a time
For cultural boycott

You gotta learn the facts
And then you gotta make a stand
You can be sure injustice is something
Everybody understands
When you decide that the time's arrived
For cultural boycott

Boycott divest and sanction
Till Palestine is free
The only course of action
To show our solidarity

Since Israel's an apartheid state
And racism just isn't right
But just like with South Africa
We can all join the fight
So now you can see why it's gotta be
A cultural boycott

When Palestinians dare to dream
They face Israel's brutality
Breaking the rules of international law
again

With impunity
And that's how you know
that's it's time to go
For cultural boycott

Don't let your indecision
Interrupt your stride
Boycott Eurovision
Don't help to artwash apartheid

You gotta talk it through
And then you gotta give it thought
Cause if you believe in
Palestinian human rights

You gotta show support
And soon you will find
that there comes a time
For cultural boycott

You gotta talk it through
And then you gotta give it thought
Cause if you believe in
Palestinian human rights

You gotta show support
And soon you will find
that the time's arrived
For cultural boycott

And soon you will find
that the time's arrived
For cultural boycott
